

Landscape Architect

Marek Landscaping, LLC is a design-build company founded in 1996 that provides sustainable design and construction services using low-impact design methods for native aquatic, riparian, upland, and woodland restorations, bluff and shoreline stabilizations, stormwater and erosion control best management practices, multi-use trails, parks and landscapes. We also develop and implement land management plans for these projects ensuring long-term health and viability. Current projects include bluff and shoreline restorations, green infrastructure, landscape design, and park planning.

We are currently seeking a licensed **Landscape Architect** to:

- Serve as project manager for multi-disciplinary projects, including being the main point of contact, managing project schedule and budget, directing design staff for completing tasks, conducting internal reviews, and distributing information from prime consultant or client to the staff.
- Mentor landscape designers and support staff.
- Create design budgets and proposals for a variety of clientele (public, non-profit, and residential).
- Prepare renderings and exhibits for private clients and public informational meetings.
- Produce landscape designs and specifications from concept through construction drawing stage, including: detailed drawings, planting designs, grading plans, and site layout.
- Conduct field work including site measurement, map generation, site photography, vegetation assessment or sampling, and contract administration.
- Generate construction budgets and bids.
- Communicate with Foremen to direct field crew on design implementation.
- Work independently and as part of a team, often in a cross-disciplinary manor.

Qualifications:

- Professional landscape architecture degree (BLA, BSLA, MLA).
- Current Landscape Architecture licensure in Wisconsin.
- Minimum 5 years professional experience.
- Knowledge of native flora of Wisconsin and land management strategies for these ecosystems.
- Proficiency with Microsoft Office suite, Adobe Creative Cloud suite, AutoCAD, SketchUp, Google Earth.
- Experience with field monitoring and reporting a plus.
- Familiarity with Low Impact Design principles a plus.

Please send a cover letter and resume to info@mareklandscaping.com. Thank you!
