

Landscape Designer

Marek Landscaping, LLC is a progressive design-build firm that combines the disciplines of Landscape Architecture and Restoration Ecology. With low-impact design methods we use native plants and natural materials to design and construct ecologically functional systems for aquatic, wetland, prairie, and woodland restorations, shoreline stabilizations, stormwater solutions, green roofs and walls, multi-use trails, and public parks and landscapes. We also develop and implement land management plans for these projects ensuring long-term health and viability.

We are currently seeking a **Landscape Designer** to:

- Assist other design staff on projects of a variety of scales.
- Attend site visits and client consultations.
- Prepare base maps and perform site analysis.
- Produce plans, conceptual designs, renderings, and cost estimates.
- Sketch ideas and designs by hand or with computer software.
- Create proposals, budgets, and reports for review.
- Work independently and as part of a team.

Qualifications:

- Associate's or Bachelor's degree in landscape design, landscape architecture, architecture, horticulture, or related field.
- Interest in stormwater management, public access, and/or sustainable design.
- Proficiency with Microsoft Office suite, Adobe Creative Cloud suite, AutoCAD, SketchUp, Google Earth.
- Experience with ArcGIS or LMN (Landscape Management Network) a plus.
- Effective communication skills, both written and verbal, and strong organizational and time management skills.
- Knowledge of or interest in local plant taxonomy of Southeastern Wisconsin a plus.

Please send cover letter and resume to info@mareklandscaping.com. Thank you!
