

Landscape Technician

Founded in 1996, Marek Landscaping, LLC is a design-build firm located in Milwaukee, WI that practices sustainable design, construction, and stewardship of the land. With low-impact design methods, we use native plants and natural materials to design and construct ecologically functional systems for aquatic, wetland, prairie, and woodland restorations, shoreline stabilizations, stormwater solutions, green roofs and walls, multi-use trails, and public and private parks and landscapes. Current construction projects include bluff, shoreline, and wetland restorations, and green infrastructure for large public projects, non-profits, and private residences.

We are a small closely held firm with a community spirit and active culture. We want our team to grow together and we invest in our employees training. We're especially interested if you share our love of the outdoors, ecology, and quality workmanship along with a strong desire to make a difference. One thing everyone here does share is a passion for something outside themselves, whether it's for skiing, birding, or music, tree climbing or gardening, biking or community activism.

We are currently seeking a **Landscape Technician** to:

- Work independently and as part of a team, following instruction from Construction Foreman
- Operate or be willing to learn the proper operation of various tools and equipment: chainsaws, jackhammers, power tools, skid steers, compact excavators, tractors, and other specialized equipment
- Perform maintenance on tools and equipment: inspections, lubricating, and cleaning
- Assist with the installation of leading edge residential and commercial hardscape and softscape features
 - Natural stone & paver patios and walkways, retaining walls, green roofs, ponds, fountains, and other water features
 - Planting, seeding, soil preparation, and erosion control material installation
 - Tree pruning and removals and forest management
- Load and unload materials, tools, and equipment safely and efficiently on a daily basis
- Have a positive attitude most of the time

Qualifications:

- Minimum High School Diploma, GED or equivalent. Preferably Associate's or Bachelor's in Horticulture, Landscape Design, Construction, or related field
- Have a valid Wisconsin driver's license and be capable of operating large trucks (will train)
- Effective communication and strong time management skills
- Capability to work long hours in the field under adverse working conditions, including heat, humidity, cold, rain, or snow
- Ability to lift a minimum of 50 lbs.
- Agricultural or Construction background a plus
- Wisconsin Pesticide Applicator License a plus (will train)

Please send resume & cover letter to mike@mareklandscaping.com or call us at 414-272-0242 for more information. Thank you!
